**Run: 1381**  
**Hares: RTT**

**Date: 21 July 2017**  
**Venue Warwick**

### THE RUN

Our **RA** must be on very good terms with the weather gods, the rain held back again, the **On Sec** even spotted some sparkling stars in the breaking cloud cover.

Hare **RTT** was called upon to give instructions: the walkers had to stay back a moment to give the runners a chance to run around the park before the walkers joined them.

It started sprinkling, some walkers ran back to their cars for umbrellas and rain coats, but the shower was short lived.

**RTT** set the run late, considering the weather conditions, nice big farrows, lots of falsies, and he made use of every laneway he could find. Nice run again, 45 minutes and it was all over.

### THE CIRCLE

The **GM** called for the circle, sporting a new head cover, a beanie with lights!! Which read ON ON GPS, he needs all the encouragement he can get.

**White Pointer** stepped forward to give a run report: he kept going and going and going (I thought he was running) 9.0

**Meladjusted** was appreciative of the farrows as he had no idea where he was.
