Last weeks **RUN 1383** Hosted by **Sir Fumbles** . Cassidy Park Thornlie.

In the absence of your On Sec High Beam due to illness you got me.

The rowdy mob was called to order and the hare told the runners to piss that way and the walkers to hold back a few minutes to a convenient short cut across the park to join up with the runners. The run was a very pleasant and flat meander through the parks and back doors of an area I don't recall ever running before. Well marked and after a very reasonable 50 minutes both runners and walkers arrived back at the bucket within 10 minutes of each other with no casualties , injuries or lost.

At the circle Wenchy was highly impressed and gave the run a 9.9. Sir Fumbles was given the usual down down for his efforts.

We had a virgin (apologies I missed the name).

LTNS Wisecrak and Spackle got a drink.

Then the GM got straight onto Dilvrance for talking and not showing respect.

RA Megatwatt (well done for the weather) called on the zero heroes Bellboy 120 and Sheep Shunter 160 for a down dow.

Then Suka for a good run last week and bringing her Blow Job with her this week. Diliverance lost her pussy and was duly charged. Radar was complaining. Suka again for attacking a gumnut poor innocent little thing and falling over. Blowfly was off with the fairies and Spackle once again listen to the wrong advice. It was the nagging voice in his head.

Suka then complained the Cowpat & Blowfly deliberately go to Adelaide whenever she sets a run.

GM takes over and charges the talkers again, Cookie , Slugger, Cowpat and Shifty.

Meladjusted charged Dead Squid for dropping his drink. Puki on Dead Squid for sleeping in the circle.

Troppo for talking. Horny on Butter Buns for dropping her keys. Blowfly said GMs new flashing hat looks like a deep sea jelly fish??

Jokers Cookie, White Pointer , Dead Squid , Diliverance and Wenchy have a down down.

General business , all our hospital patients are in recovery mode now.

Song was sung , the grub was delicious and it started to rain.

On On
