**Tigtarse** decided as RA – the one who actually names hashers – to remind the hash that once named the name cannot be changed. Hashers choose the name and then the RA simply confirms the name by the Powers Vested in him.

He explained to the circle that changing the spelling actually changes the name – which is not on. He then made a joke that this was infecting the whole hash and GPS and RTT also wanted to change the spelling of their names. The circle agreed that we should use the English spelling.
