Run: 1573

Date: 27th August 2021

Hare: MouthOrgan

Venue: Carramar

27 Friday hashers drove 500 miles to be with Mouth Organ on her melodious run. It wasn't quite as cold as ice, but it was still cold enough to have us rearing to hit the road Jack. And we were rewarded with some hot red red wine, which brought about a change in temperature as it was about that time that the wind dropped as well, RA dong a splendid job.

Then it was back home on the range, Radar in all her Radar finery stood in for our GM called the circle and then called Cowpat and Buttered Buns in to sing Mouth Organ's praises. Cowpat said the run was windy, that's the S bend windy not the flatulence windy, it was beautiful and very gay as there were no straight streets; Buttered Buns gave the run an almighty "AWESOME", she liked the loooong farrows that were easy to see and looooved the drink stop.

Our LTNS were welcomed back: Cookie, Sir Fumbles, MollyDuker, Hopping Mad and Rowdy Rabbit who had really only missed one run but he decided to honour AC/DC and have a drink on me. Sybil was our sole zero hero with 540 runs.

RA opened his charges with a tribute to Hot Chocolate-Inspector Gadget turned up to the run supping on a milky hot drink. Then Meladjusted was called in, was it a charge or accolade that he was seen out doing PR in the streets of Carramar. Troppo was next up, no need to confess today as he was duly charged for his tribute to the recently late Charlie Watts, being a rolling stone as he gathered momentum going down the hills.

MollyDuker was then called into the circle by our esteemed RA and charged for being jumping jack flash, leaping out of bushes to scare the lady hashers, but little did we know why he ended up in the bushes until he called a "young lady" named Cowpat in for a charge, stating that she was too competitive, racing downhill, but it would appear that during the run Cowpat stripped off her top and this is what caused MollyDuker to fall into the bushes in the first place. You see there is a reason for every season.

Then the charges opened to the circle, Ballwinkle called RA in as he just couldn't make up his mind all evening it was fine one minute then showers next minute, he was confusing everyone, and Radar also called Hogshit in for a related charge of having absolutely no faith in the RA, he brought his kayak along to Hash. White Pointer then charged Buttered Buns for mentioning the farrows as big as Inspector gadget's five year old. Meladjusted ended the charges by calling MollyDuker in for the late charge of leaving his tackle behind a couple of weeks ago, I mean tackle box.

The Hashy birthday song was sung with gusto for Mouth Organ and Sir Fumbles, Troppo was floating in the background, it is still a hot August night.

The jokers kept our spirits alive with their mirth-Cookie starting off with the American couple holidaying in the Holy Land, not wanting a burial where resurrections are rife; Cookie was called back into the circle to be a part of Inspector Gadget's true story about Luigi's middle finger when he married Maria, Cookie kept sidling over to her friends Radar and On Sec as she wasn't sure what was coming and needed support, and like true friends they kept pushing her back into the circle, we've got your back Cookie ☺. Then Troppo did a tribute to the Irish.

Blow Fly led the circle with the final song of the night, and we enjoyed some Minestrone Soup, Carrot and Coriander Soup, followed by the famed Pumpkin pies, yummy, thanks to Mouth Organ and Ballwinkle
