**RUN:** 1693

**Date:** 19 /01 / 2024

**Hare:** Workclock Orange

**Venue:** Leederville

After the longest run instructions in the history of FH3, 41 hashers wearing some sort of orange gear, headed towards the busy streets of Leederville. Going thru the back streets of the hectic restaurants' alley, we crossed the Mitchel freeway at the train station. One of the false trails was so long that some had time to go into the Irish Pub and get a quick pint. Found trail and continued to lake Monger, we were fronted with clouds of mozzies and midgits. Head lights off and assuring having the mouth shot to avoid having unwanted protein, we arrived at the drink stop where we found Replicar dressed in full butler gear (vest and bow tie included), and we were served port with lemonade and soft cheese with biscuits. Everything else continued normally, circle and plenty food, until the local council played a trick on us: Powerful sprinkles were switched on suddenly, and like cockroaches going every which way when the light goes on, everybody got the hell out of there the best way they could. Gadget was the first out since his car had the roof down. The food table could be safely moved away since it took some time for the water to spin over there. At the end, mostly everybody and many cars ended up smelling bore water.

## Runners Report
