RUN: 1694

Date: 02 /02 / 2024

Hare: Light my Fire

Venue: Bassendean

It was still 32 degrees when the GM called 42 hashers for the circle to first welcome some new visitors and asked the co-hare Sheep Shunter for run instructions who talked about two trails, a lot of bush and a promise of a drink stop.

After a few hundred meters, the heat started to bite and as a result, Troppo's shirt came off and Biro hit the showers of a very welcome sprinklers since they were not bore water. When Hogshit pulled a hammy, gave the task of crossing the checks and falsies to Tight Arse he protested strongly but, didn't have anybody else to pass the job on and kept whining about it the rest of the run.

As the sun disappeared and the breeze started to cool down, we reached the well expected drink stop, where we found out that despite the fast running of Franger, a few long false trails had kept the pack together. We rushed home out of there thru a bush path before it was completely dark. As a surprise to everybody, our friends the mozzies didn't come to the party tonight.
